

Let's Go

Words and Music by Kent Lehman

So you say you wanna go where there's no one around
That can bring your body down
One look outside and back and we just grinned
So I brought some songs to play out,
Brought some wine and cheese
Now all that's left is the wind

So throw off the top on the Cabriolet
Now you're free as the wind
Your soul opens up, the sunlight on your face
Yeah we'll drive into the day.

Well I opened up the door and there's no one around
When I walked inside the room
Where were you when I came around?
I found you by the car, let's just get inside
Who cares what's ahead?

So throw off the top on the Cabriolet
Now you're free as the wind
Your soul opens up, the sunlight on your face
Yeah we'll drive into the day.
So let's go, let's go
Yeah, there's something on the way.

So (let's) throw off the top on the Cabriolet
Now you're free as the wind
Your soul opens up, the sunlight on your face
Yeah we'll drive into the day.
So let's go, let's go
Yeah, there's something on the way.
C'mon let's go, let's go
Now it's time to run away.
