

# Let's Start Over

Words and Music by Kent Lehman  
© 2010 Kent Lehman

Let's start over, forget about the things we said  
And maybe then we can get along OK instead  
Let's start over, no more games and no more threats  
And if we're able another day without regrets  
You can say it's not too  
You can say it's not too late  
You can say it's up to us

Let's start over, erase the past mistakes we made  
No more walls and deconstruct this palisade  
Let's start over, do all the "firsts" all new again  
When words were more than spoken, looks or by a pen  
You can say it's not too  
You can say it's not too late  
You can say it's up to us

No something's gone away, I keep going back to  
The same old replay I'm really used to  
Feel like nothing's really changed and I can't pretend to  
I don't know what to say... Maybe...

Let's start over, forget about the things we said  
Let's start over, no more games and no more threats  
Let's start over, erase the past mistakes we made  
Let's start over, do all the "firsts" all new again  
You can say it's not too  
You can say it's not too late  
You can say it's up to us

No something's gone away, I keep going back to  
The same old replay I'm really used to  
Feel like nothing's really changed and I can't pretend to  
Like the way you are...
